## Customer Reviews

Everything in here is an intro book for brand new shooters or people getting into the game. I bought it with the hopes it would have more detailed ballistic reports and gelatin tests, but it's really just a short synopsis of the 'major' handgun rounds. If you're new to shooting, then I might recommend this.

General knowledge of the title. Good fast read. Helps the novice to understand the confusing world of Ammo and names.

This author is an accomplished gunsmith and writer. I enjoy all of his works. He really knows his area of expertise.
