## Customer Reviews

As a new user Facebook - it had more information than I could follow. Could do without the "cute" stuff. When I start reading about my question it would refer me to another chapter, then refer me to another section.

It's probably not just this book, but any book on Facebook or any social media for that matter, is bound to be out dated before the print is dry. I got this book to answer one question about a function of Facebook, and the pages it referenced were already changed so the instructions in the book

were useless. These platforms change almost daily so there is no way a book can be used to keep up with it.

I found this book to be very helpful and informative. Facebook is not a big scary zone to me now. I would definitely recommend this book to anyone who wants to know more about how to use Facebook and really enjoy it. It is such an amazing and fast way to keep yourself and others informed about what is going on in your life and with your family and friends.

I bought this book to find out how to delete a person I had asked to be a friend by mistake. (same name, wrong person.) I couldn't figure it out. The book was not helpful. It should have a table of contents. My son set up my account for me so I didn't have to read the first section. I did anyway and got more confused. I do not plan on using Facebook.

Explains a few steps, but NEVER gives a picture of what a wall is or really how to post on it. Not even worth a dollar.

I love the book and it came in no time flat. Thanks to everyone involved. This is a great little book. I just love the Dummies book for us that are facebook challenged ;0) The entire transaction was great and I will always enjoy shopping at .Sincerely, Sharon W. Allentown, PA

I have had a Facebook for 5 years, but I love to still look at the book and just see if they're stuff I don't even know about Facebook. Good guide to facebook for beginners.

Really didn't answer my questions, but our pages seem different so directions didn't help much. Gave me some insight, though.
