Customer Reviews

the shipping and handling was great, but the content was not what i expected. there was very little of the autumn leaf pattern in dinnerware, such as plates, coffee and tea pots, butter dishes, cups saucers and nor mixing bowls or anything else in the dishware that i was wanting to identify. the book was totally useless to me. the service from was very good. i have over one hundred pieces that i wanted to study and price.

This book is absolutely everything I'd hoped for and more. I would highly recommend it and its partner book "The Jewel Tea Company: Its History and Products" to anyone interested in Jewel Tea and/or collecting it. It answers a lot of questions and has a lot of interesting facts.

nice source information when i first started to collect jewel t dishes .tells about the history of them and the people that got them started

lot of history,not enough prices for everyday,mostly the rare items

Great reference!
