# DNS Security: Defending The Domain Name System

## Synopsis

DNS Security: Defending the Domain Name System provides tactics on how to protect a Domain Name System (DNS) framework by exploring common DNS vulnerabilities, studying different attack vectors, and providing necessary information for securing DNS infrastructure. The book is a timely reference as DNS is an integral part of the Internet that is involved in almost every attack against a network. The book focuses entirely on the security aspects of DNS, covering common attacks against DNS servers and the protocol itself, as well as ways to use DNS to turn the tables on the attackers and stop an incident before it even starts. Presents a multi-platform approach, covering Linux and Windows DNS security tips Demonstrates how to implement DNS Security tools, including numerous screen shots and configuration examples Provides a timely reference on DNS security, an integral part of the Internet Includes information of interest to those working in DNS: Securing Microsoft DNS and BIND servers, understanding buffer overflows and cache poisoning, DDoS Attacks, pen-testing DNS infrastructure, DNS firewalls, Response Policy Zones, and DNS Outsourcing, amongst other topics

## Book Information

Paperback: 226 pages

Publisher: Syngress; 1 edition (June 28, 2016)

Language: English

ISBN-10: 0128033061

ISBN-13: 978-0128033067

Product Dimensions: 7.4 x 0.6 x 9.2 inches

Shipping Weight: 1.1 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars [See all reviews](#) (1 customer review)

Best Sellers Rank: #373,195 in Books (See Top 100 in Books) #4 in [Books > Computers & Technology > Operating Systems > Unix > DNS & Bind](#) #235 in [Books > Computers & Technology > Security & Encryption > Privacy & Online Safety](#) #339 in [Books > Computers & Technology > Networking & Cloud Computing > Network Security](#)

## Customer Reviews

Geoff and Allan have done an incredible job making DNS Security come to life. The prose flows forth like poetry that dances playfully upon my aroused senses. The first chapter, especially, was as brilliant a treatise as I have ever read. It would seem hyperbolic to compare this to James Joyce's "Ulyses", but I honestly feel like no other comparison is as appropriate. Do yourself a favor and buy

this book. You'll thank me.
