Add Audio And Video To Your Site: The Mini Missing Manual

Synopsis

Nothing spices up websites like cool sound effects (think ker-thunk as visitors press a button) or embedded videos. Think you need a programmer to add sizzle to your site? Think again. This hands-on guide gives you the techniques you need to add video, music, animated GIFs, and sound effects to your site. This Mini Missing Manual is excerpted from *Creating a Web Site: The Missing Manual*.
