Customer Reviews

This book is so cute. My son is always going around trying to make up his own "jokes". This book was a great opportunity for him to learn some real jokes that are age appropriate. He loves making people laugh and now he can deliver some real punchlines. He is five years old so getting a good laugh is important to him. He reads early reader books alone pretty easily. Sometimes he asks me to help him sound out a word. This book is a little more challenging to him. That is a good thing though. That is how a child moves up to the next reading level. If a child has a good book that they are interested in then they are more likely to read it. A joke book is a great way to spark that interest. The author is Johnny B. Laughing, that in itself is hilarious and inviting for a small child. I was lucky enough to get this book for free, but anything that makes a child want to read is well worth the asking price.

Wonderful Read. I can't get enough of reading this book. Love the ease of having it available on my kindle at any time. I just can't believe it's free!! I look everyday to see what great free additions to my library I get to make. I always find something new and exciting! Keep them coming

A collection of jokes that most kids will love. I was a little disappointed that there were no illustrations in this book because I think it adds a lot of interest for kids and encourages reading.

However, there is a nice assortment of jokes and most kids will be able to find a category that they think is funny.

I was really excited to share this book with my younger siblings and we ended up taking turns reading the jokes but it was very hit and miss on the funny with them (ages 6 and 8). There were a few that just confused them at their age range. We did like that it categorized the jokes, first by knock knock and then by animals (birds, cats, etc.) It makes for easy finding when you really want to share a joke but can't remember all of it. We did have a good time overall but they oldest said she probably wouldn't use the word "hilarious" to describes the jokes as they were only just "funny". I would probably try another title like this again, as they are easy to read and the overall concept gets a child excited about reading, who doesn't want to learn a new joke, which is the most important part for me. I did receive this title for a reduced cost in exchange for an honest and unbiased review.

My kids love jokes and we have small collection of joke books. Some of these jokes we had heard before and some were not funny, but many had the kids cracking up. There is different types of jokes in this book, there are knock-knock jokes and then the other jokes are organized into categories (birds, cats, music, sports, ect). This made it easy for the kids to go to the section they wanted to read. They each took turns reading different jokes aloud. Each joke was easy enough for my kids to read and understand. Some jokes they didn't find very funny (not many, but in a book with so many there has to be a few stinkers) and others they heard before (although they still laughed at them). Overall this was a very entertaining book for them and kept them laughing for awhile. They each had their favorites which they enjoyed telling their friends. I received this kindle book for free for my honest review.

This is for kids supposedly but I think, its more of a riddle than a joke and it isn't that funny, my son wasn't laughing but was seriously thinking of answers and then he just ran away and play instead.

For little kids just learning to read this is great. For stressed out adults this is wonderful! Just a few pages of very silly jokes that don't required a lot of effort to "get". Perfect to keep in the card for trips with goofy kids who might otherwise be bored.

This is an entertaining book of jokes for kids....and adults. I enjoyed it just as much as my kids. These were so much better and more original than several other books I have purchased of super

lame jokes. It includes knock-knock jokes and tons of jokes that are about animals, sports and other fun topics. This is a great book to have on your next road trip to let the kids read them out loud to you. Then everyone can get a good laugh. Highly recommend. I received this item at a discount in exchange for an honest review.
