This is another Dr.'s office find for my grandsons. Both of my grandsons are into anything with big tires and big engines. What I especially like about this book is the variety of Rescue Vehicles displayed. Fire fighting equipment for controlling brush fires on the West Coast are very different than what we use in the Pineywoods of East Texas. I learned about East Coast Coast Guard firefighting boats! The rescue personnel are depicted in official uniforms, with friendly, relaxed smiles and body postures that will not frighten little ones with fears of strangers in uniforms (an issue we are dealing with now). This is one book I don't groan about having to read over and over to my grandson. Get it for your little one and learn something new yourself!

The Priddy books in this series are great. This one is nice because it not only has the great, bright, big pictures but also has different rescue professionals doing things with their cool helicopters, ambulances, etc.... The "action" shots seemed to really excite my daughter and her buddies. Sturdy board book, large for when they want a big bold book.

This is "the" book for any toddler obsessed with fire trucks and other emergency vehicles. Thanks to this book, my kid can accurately identify any rescue vehicle from 100 yards - even the obscure ones.
