## Customer Reviews

I think this book has been so generous in giving more than 200 recipes that are Low Carb High Fat. I find this book very useful and helpful since this is what we need in these times when we are bombarded with unhealthy food everywhere we look. And what is amazing about this book is that it has prepared a full month's meal plan that anyone can use. If there were pictures, this book would have been so perfect. But on top of this, I still find this a worthy grab.

This is very good book study about the low carb diet. This is very helpful guide book. This book will give you a delicious recipes that contains low carb which is very useful in losing weight. This Comprehensive book will provide Scientifically Proven Strategies to help your body Burn Fat by going Low Carb High Fat. Highly recommended for everyone.

If you want to lose weight and see result in just 1 month you will definitely need this book. This book will give you a delicious recipes that contains low carb which is very useful in losing weight. Too much intake of carbohydrates is one of the trigger that makes us fat that is why this book lessen this to help us reduce weight.

One of the reasons why I like this book is because I think the author has presented the topic in a very detailed manner. Basically, he has explained well the definition of low carb eating which basically sets the idea of the whole content of the composition. The content appears to be even

more realistic and convincing with all the supporting information provided by the writer. In general, the book is an evidence of a universal guideline which will instruct and motivate a lot of health-conscious individuals on how to manage successful and healthy low carb diet meal plan.

This book is written in a clear format, with an "easy to understand" scientifically researched presentation. This book is a great starting point for low carb dieters. They explain the concepts in plain English and provide tips not found in other books that help you to stick with it. Have lost 11 pounds thus far and have ordered their other book, too. This book includes the basic principles, daily menu examples, a weekly shopping list example, a list of compliant foods, and many recipes to pick and choose from. If you are researching this lifestyle, this is the book to start with.

I love slow cooker meals despite having to wait long hours before the dish is ready to be served and this one did not disappoint. Tried two recipes so far, ones that I already know how to cook so I know exactly if the other recipes are good, and to my delight, the ones I've tried are better than the recipes I used to follow. Following the recipes here from now on. By the way, I'm not into any kind of diet atm but I'm pretty sure that for those who are into low carb diet, it's a great recipe book to own.

This Comprehensive book will provide Scientifically Proven Strategies to help your body Burn Fat by going Low Carb High Fat. You will also find one FULL month meal plan to make the transition easy! This book will use a step-wise approach to take you through the LCHF Diet and further beyond into the practical application of making healthy and super tasty recipes. This book will teach you exactly what you need to know about the LCHF Diet as well as it's many Advantages and Health Benefits. I really like this book.

The recipes in this book will be a great ideas to have with family and friends. It provides a list of foods that are low carb and lot of information in this book. There are also helpful recipes to try and very satisfying. I found the recipes a very effective in low carb diet and I would say it effective guide. This book helps you to understand the low carb diet and the health benefits. Definitely recommend for anyone eating low carb!
