Monitor Your Home Network: A How-To Guide To Monitoring A Small, Private Network

Synopsis

Know what's happening in your home computer network. Learn some tools and techniques to see what your kids, family, guests are doing. Using free and open source tools, have 100% visibility into your network. This book takes a practical and straight forward approach to investigating data on the network, including HTTP (Web) , DNS (Domain Name System) and others.
