# Adventures In Arbitrage: One Man's Journey Through The Jungle Of EBay To Profitability On The River

## Synopsis

This is the story of John's experiences through 20 years of buying and selling online. Culminating with his recent experience selling through the FBA channel of and reaching \$1 million in sales in his first 18 months. The book is a very personal account of his experiences during this time and portrays the good the bad and the Ugly of being an entrepreneur selling on eBay and 's platforms. The book also includes his experience with storage auctions, flea markets, conventional auction venues and yard saling. It's purpose is to inspire both newbie and veteran sellers alike.

Entrepreneurship

## Customer Reviews

I bought this book this morning and read the entire thing this morning. I could not put it down. This should be required reading for any one thinking about being an entrepreneur. John's honesty about being a business owner is inspiring. He really lets you into his life and how being an entrepreneur has effected him through out his life. His success and failures and everything in between to becoming an success story.

This book is a true inspiration to those that choose to take the path less chosen. An entrepreneur is one who sees past what a traditional 9-5 job offers. This book helps to flesh out through John's experiences how tough taking the high road can and will be. The beauty of the book is it allows other like minded entrepreneur's to take a journey through someone else's highs and lows, Triumphs and failures. This helps you to fully understand that even if you do not succeed the first second or third time, If you have the will and drive then nothing is beyond your reach. I read through the book in 2 days, it is short and to the point with no useless run-on fillers inside to drag you down. In my eyes John is just a regular guy who choose to never give up and kept dreaming big. You receive what you put out into the universe and I am grateful to John for sharing his life's Journey with me.

I know John from the groups he and I belong to on Facebook. He has been a great help to me this year. I couldn't wait to read his book so I bought the Kindle one and the hard copy. I just read the Kindle one. And I happily give him five stars. He doesn't pull any punches. He puts his mistakes and his triumphs right there for everyone to read. As I read his book and read about some of his mistakes I would think to myself "I wish I had read this book before I made the same mistakes" because I have made many of the same ones he did, but like John I learn for the mistakes and go on. I recommend this book to anyone that wants to learn about ways to make money online, that wants to learn about the best items to sell on Ebay and ,and how to find them. I would also like to thank John for writing this book. It opens up my eyes to a lot of possibilities.

If you are looking for a how to book this is not the book you want. What it is a history of how one man never gave up on his passion to find his dream even in times of total chaos. It is a book that can inspire you at this very moment that even if you make mistakes to learn from them and continue hitting the pavement to source. I loved the 25 tips in the back of the book and will continue to learn from people like John who are so willing to share their failures and successes. I would definitely recommend this book.

Great read with lots and lots of insight on John's journey with selling online. A man after my own heart with using flea markets to source products the information inside is tried, trusted and true to form. Good information and resources that will help anyone whether a newbie or seasoned pro. Thanks John for your story and sharing everything you know to help everyone.

Like many serial entrepreneurs, John revisits the road less traveled. There are twists, turns, hills

and valleys; however his assured optimism has guided him throughout his voyage. John presents the uncertainty that self-employment brings, by sharing all aspects of his life. He mentions the personal battles as well as the economic ups and downs, to breaking free of the J-O-B. It is clear that he believes in abundant opportunities, and outlines his success in capitalizing on trends that technology and fads create. Recently, he's turned his love of buying and selling into a profitable business, which is very inspirational. As I read the pages, I realize that John is living proof that *â œsuccess is a journey, not a destination.â •*

John Groleau is an overnight success twenty years in the making. *Adventures in Arbitrage* reads like a conversation you would have with a good friend over a couple of beers. John tells his story of success, and includes all the failures along the way. Rather than a how to book, it's a how I did it book. I laughed, I cried, and I picked up a lot of tips on how to succeed, not just in sales, but in life. Do yourself a favor and buy this book.

Sat down and read John Groleau's *Adventures in Arbitrage* in one sitting. Book is mesmerizing, and inspiring, This guy has gotten knocked down, got back up, knocked down again, and back up again. This book will be an inspiration to anyone who reads it-full of great current information about sourcing for products, pitfalls to avoid, lessons author has learned that will help the reader avoid mistakes along the way. A real hero to many in the community-he talks the talk and walks the walk!!
